

BULLDOG CLUB OF AMERICA

Position Statement

ANIMAL TERRORISM

The Bulldog Club of America abhors acts of violence committed against dog owners, dog handlers, kennels, and research facilities by those who object to the keeping and use of animals. The BCA respects the right of all individuals to express and advocate personal opinions in lawful ways.

We strongly condemn illegal actions such as the “liberation” of dogs or destruction of property. The BCA supports fostering the human-animal bond and believes that the right of people to own, train, interact with, and exhibit their dogs in a humane manner without interference furthers this objective.
