Current Champions

THERE ARE ninety-seven Champions on this year's current list, up two over 1968. This is a fiscal list, covering those Bulldogs which have completed their titles and their names published in the American Kennel Gazette, issues of August 1968 through July 1969. There are possibly many more Bulldogs which have completed their titles, but were not confirmed in time to be included in the issues mentioned.

Leading Sire, Leading Dam and the list of Current Champions follow. Years ago, we included the list of leading breeders, but it became practically impossible to get the current list accurate, and we had to forego it.
